WELCOME

Welcome to our online bull sale!

Where has the year gone! Can't believe it's sale season already. The sale format will be the same as it's been the past couple years. If you're unfamiliar with it give me a shout, and I can walk you through how it works.

A lot goes into this throughout the year, and I need to thank a few people. Tracey Koester at Cow Camp Promotions for putting all this together. The catalog, the ads, and especially for dealing with me as I'm an exceptional procrastinator. Mike Davis at Davis Cattle Services for "beautifying" the bulls as he puts it. Especially need to thank my wife. For putting up with me every single day of the year. Also, for all the help throughout the year and all the many things she does that are too numerous to mention. Taking time off work to help work cattle. Be it ultrasound, clip, vaccinate, picture. Just all the things. You are an absolute blessing.

I'd like to thank all our past customers for allowing us the opportunity to earn your business. I believe in our product and stand behind it 100%. This year was certainly full of challenges with a dreadful winter that turned into a brutally dry summer. The main farm where the cattle and pasture are received around 1.5" of rain through August. As much as I cussed the snow last winter it saved our butts on making the little bit of grass we had. With the drought our weaning weights were down about 100 lbs across the board, but the calves have performed extremely well post weaning. Dare I say as good as ever. They're right on pace for where we typically would be this time of year. I was nervous about breed up with it being so dry, but the cow herd and heifers did exceptionally well which I was very thankful for.

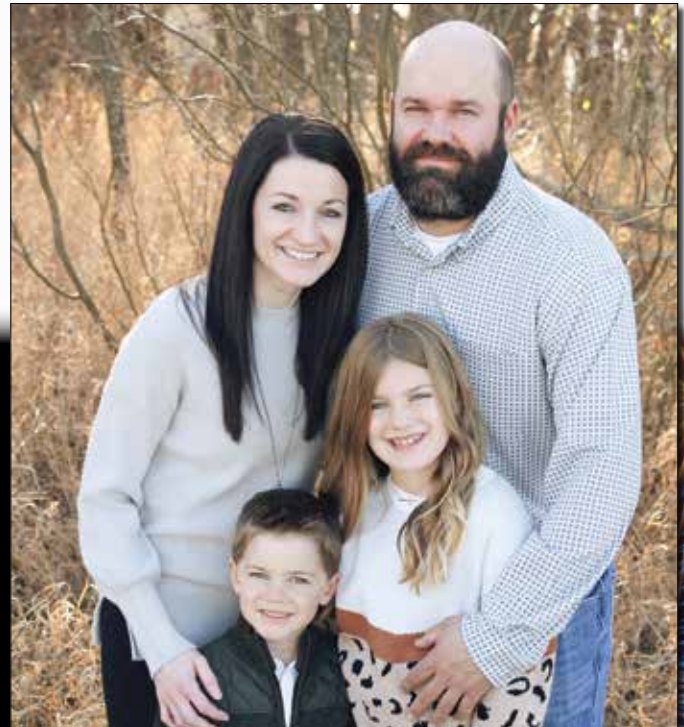

The calves have been handled the same as years past. Alpha 7 and Naselgen 3 PMH in the spring. Fall they had two rounds of One Shot Ultra 7 and Vision 7 somnus with Spur. Poured and wormed with Cleanup II and Dectomax Injectable post weaning. Poured again when we took yearling data with Ivomec. They're coming along nicely, and I'd love to show them off to you. If you'd like to come and look, just give me a call or text, and whatever works for you will work for me.

I fully believe the lifeblood of any outfit is the cow herd. I work hard at improving ours every year and am very proud of what we have assembled here. This is a hard-working cow herd. I value fertility, phenotype, and performance. We try to run them as hard as we can. This year we have been fortunate with the winter. All the bred females came off pasture, and straight to corn stalks. No supplement aside from a lick tub until Christmas. Getting into that last stretch prior to calving we start feeding, but they get along with as little as we can. They handled the summer and came home in good shape and look even better as we approach calving.

As I write this, the high was in the 40s today (no – in front of that). I've never been so happy to see a little mud in my life. I hope everybody has enjoyed this stretch of weather as much as I have!

Look forward to seeing you! If there's anything I can do to help just let me know!

Troy and Jeri Carter

DV Auction Office..... 402-316-5460

GENOMIC ENHANCED EPD

Genomic Enhanced EPDs will be available prior to sale. Supplement sheet will be available prior to sale through DVAuction or call and ask we will be happy to provide one.

VIDEOS

Videos of bulls selling will be available for viewing through DVAuction. See page 2 for bidding details.

SEMEN INTEREST

Retain the right to 1/3 semen interest on any bull selling.

WINTERING AND DELIVERY

Free wintering on bulls until fertility testing which typically occurs early April. Free delivery 400 miles in the U.S.

INSPECTION OF CATTLE

Buyers are encouraged to view the sale offering prior to the sale at their convenience. Available for viewing at any time. The bulls are located 3.5 miles south of Rocklake, and 1.25 miles east.

GUARANTEE

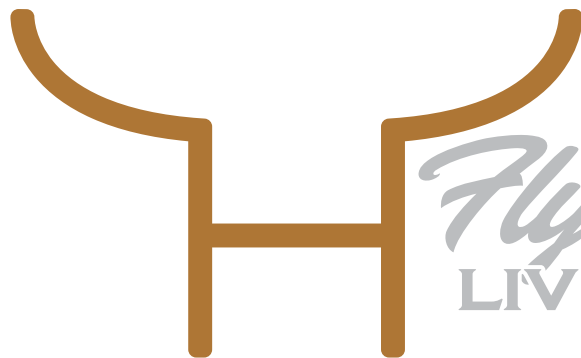

The bulls are fully guaranteed through the first breeding season. If there is a problem with an injury or infertility prior to delivery it is our problem and not yours. Mortality insurance is recommended. Contact us if you would like to purchase insurance and we will take care of it for you as well as share the cost.

HERD HEALTH

Cattle will be provided with proper health certificates for interstate shipment. Cow herd is tested annually for Johnes.

DVAuction Online Only Auctions

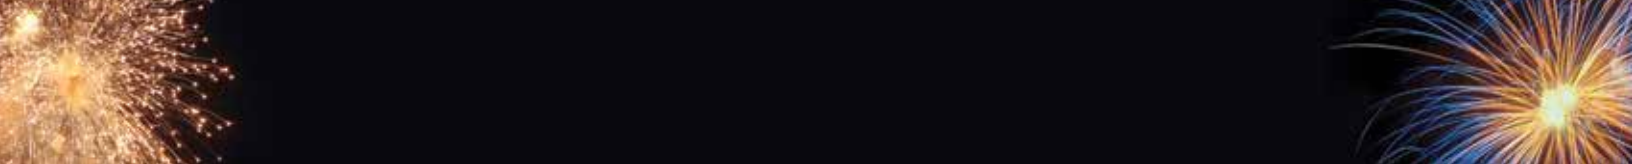

How they work:

This means that bidders will be able to preview the lots online with complete information, including their pedigree, EPDs, and possibly a video, for several days prior to the sale. During that time, bidders can leave a maximum bid, which the system will represent confidentially up to that amount. Bidders can also bid incrementally, as the bid advances prior to the close.

All lots will close at the same time. Bidding will be extended if a bid is placed on any lot near the closing time. Bidding will officially close when there are no bids placed within a 5 minute period of time.

For General Questions Please Contact Our Office:

Herd bull prospect by our herd sire 632J. He's been a favorite all year. We used 632J on heifers very successfully. Beautiful headed – they come shooting out and they just go. I feel there's more calving ease here than he shows on paper. Calved our first King Arthur daughters with this calf crop – you may want to take notice on what they raised. They're doing a phenomenal job.

Maximus son with loads of shape and muscle. Herd bull type bone and design. Dam came up with foot rot pretty bad last summer, we nearly lost her, that surely hampered his weaning weight, but he's going to be a bull to add pounds and substance. Dam is one of my favorite Rock Star daughters. Grandam is one of the best cows on the place.

Picture pretty well sums him up. Strong-topped, attractive-patterned bull with a lot of quality and eye appeal. He's a good one. Dam has done a tremendous job. She's a real sharp fronted cow with a picture-perfect udder.
